**Data Sheet** 

## HiTherm 17 oz Silicone

## **Product Description**

Product Name : Silicone Coated Fiberglass. Color(s) : Gray, Carlsbad Tan, Red

**Product Description**: Fiberglass fabric designed for high temperature removable insulation jacketing

& welding curtains.

## **Product Specification**

Substrate Type	Fiberglass/Satin Weave Fabric		
Coating Medium	Silicone		
Width	60	(inches)	Method
(nominal)			
Weight	17 ± 5%	(ounces/sq. yard)	ASTM-D-3776
Overall Thickness	$0.016 \pm 0.001$	(inches)	ASTM-D-1777
Tensile Strength	Warp= 355 / Fill= 275	(pounds/sq. inch)	ASTM-D-5035
Tear Strength	Warp= 60 / Fill=60	(pounds)	ASTM-D-50587
Burst Strength	600	(psi)	ASTM-D-3786
Flame Resistance	Char Length.	0.3" Max.	ASTM-D-6413
	Afterglow	1 Second Max	
	Flame Out	1 Second Max.	
Operating Temperature	-67°F to +500°F	(continuous)	
Temperature Resistance	Melting Points 1523°F
